The totals for 1912 in the table are taken from the statistical table of last year (QUARTERLY, vol I, p. 27) when not otherwise indicated. The elections for 1913 are copied from reports of Chapter secretaries for 1913 to last year's totals. All members are grouped on the basis of original membership, i. e. a member elected as a graduate student remains in that group although he may subsequently enter the faculty.

*Figures starred have been revised by chapter secretaries and all errors in classification of members corrected as well as omissions from the original lists made good. Names omitted from these lists are printed on page 35 of this number as reported by chapter secretaries.

The two defunct chapters enrolled 18 members not included in the totals as given in the table above.

In summing up the grand total of membership from all chapters, this method of reporting will produce an error, as many men will be counted twice, active in one chapter and alumni in another. But the local secretary sees no method of avoiding that with the above form.
